

## WSC Timber Screw

The WSC timber screw is ideal for timber to timber applications with its coarse thread and flat head with nibs. The flat head with nibs design allows for easy countersinking for a clean flush finish.

### Features

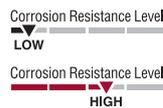

- Flat head with nibs for easy countersinking
- #2 Square drive (driver bit included in box)
- Coarse threads
- Type-17 point

### Application

- Timber-to-timber
- Maximum recommended board thickness:  
32 mm screw — 13 mm; 50 mm screw — 20 mm

### Finish

- Yellow Zinc (WSC114SA)
- **305 Stainless Steel** (SSWSC2BSA10)

**Flat head with nibs**  
for easy countersinking

**Type 17 point** ideal for  
timber applications

## 8 and 10 Gauge Timber Screw

Bit(s) included with every box of screws
