

Strong-Drive® SDWH TIMBER-HEX

LANDSCAPING & GENERAL PURPOSE SCREW

Superior to nails in holding power and pullout resistance

SDWH TIMBER-HEX Screw

The SDWH19 Timber-Hex screw is ideal for structural and general purpose timber frame applications where a hex-head drive is preferred.

The SDWH27 Timber-Hex screws are also available with an extra strong shank and have a Hot Dipped Galvanised finish for when you require a heavy duty fastener for tough exterior structural applications.

Features and Benefits

- Bold thread design provides superior holding power
- SawTooth™ point ensures fast starts, reduces installation torque
- Screws may be installed without pre-drilling in most applications
- Underhead nibs offer greater installer control when seating the head
- Hex Head Drive for easier installation

Applications

SDWH27

- Piles
- Decks
- Boardwalks
- Anywhere you need a tough exterior structural fastener.

SDWH19

- Ledger boards
- Stud-to-stud
- Bottom plate to floor/joist

Material and Finish

- SDWH19 — Double-barrier coating provides corrosion resistance equivalent to hot-dip galvanization, making it suitable for certain exterior and preservative-treated wood applications.
- SDWH27 — CL4 hot-dip galvanised coating suitable for external corrosive environments.
