

Heli-Tie Helical Stitch Tie

Material

304 Stainless Steel

Size: See the table below

Features & Benefits

- Helical design distributes loads uniformly over a large surface area
- Installs into the mortar joint to provide an inconspicuous repair and preserve the appearance of the structure
- 304 Stainless Steel offers excellent corrosion resistance to original reinforcement
- Patented manufacturing process results in consistent, uniform helix configuration (U.S. Patent 7,269,987)
- Batch number printed on each tie for easy identification and inspection

Applications

- Repair of damaged brick and masonry structures

Construction Details

Batch number printed on each tie for **easy identification and inspection**

Helical design distributes loads uniformly over a large surface area

Installs into the mortar joint to provide an **inconspicuous repair** and preserve the appearance of the structure
